

Victim Information Scheme

The PBNI has a Victim Information Scheme which is open to any person (or agreed representative) who has been the direct victim of a criminal offence and the offender has received a Probation Supervised Sentence. The scheme became operational in 2005.

Specific information is given to those victims or their representative who opt into this scheme. For example, this would include the length of the order and any additional requirements which were made. No personalised information on offenders is provided.

If you are dissatisfied with the service you receive

If for any reason you feel you have not received a satisfactory service please talk to the member of staff involved or contact his or her manager. If you do not wish to do this for any reason or having done it, you are still dissatisfied, please notify:

The Complaints Officer,
Probation Board for Northern Ireland Headquarters,
80-90 North Street, Belfast, BT1 1LD.
T. 028 9026 2400

The Complaints Officer will acknowledge your complaint within five working days and have the complaint fully investigated.

If you don't want to use the above procedures you can seek advice from anyone of your choice.

INVESTOR IN PEOPLE

Curfew and Electronic Monitoring

This leaflet explains what is required of a person who has to keep to a curfew and how this is checked using Electronic Monitoring.

The aim of the Board is to help prevent crime and the harm it does.

Please keep this leaflet for information and reference purposes. This leaflet may be produced in different formats on request.

About the curfew and Electronic Monitoring

A person who lives at this address is being considered for a curfew.

A curfew means that they must be at a particular place at specified times. This will be for between 2 and 12 hours a day, 1 to 7 days a week, for a minimum of 14 days. The person will need to keep to the rules of the curfew for as long as it lasts. This will be explained to them.

The curfew may be electronically monitored, this is a way to check that they are where they should be at the times identified in the curfew conditions.

Electronic Monitoring (tag)

If a person's curfew is electronically monitored they will be fitted with a tag, and a signal receiver (home monitoring unit) will be installed at this address.

The tag and monitoring unit will be used to check that they are keeping to their specified curfew times.

We are seeking your consent to install the electronic monitoring equipment at this address.

What will happen

The person who is going to be electronically monitored will be fitted with a tag worn on a strap around their ankle, the tag is a bit bigger than a watch.

Example - tag

The tag will be fitted by service provider (G4S) staff who will call out to this address, they will also install a home monitoring unit, this is about the size of a phone.

Example - home monitoring unit

G4S staff will **always** present their ID before entering your home to install the equipment. They will provide a handbook which outlines what they do. They will be discreet and respectful. They do not wear uniforms and their vehicles do not have any logos or markings on them.
